## LOCAL AND PERSONAL

## ST. PAUL'S LUTHERAN CHURCH.

An unbelieving farmer wrote to the editor of a newspaper as follows: "I have a field of corn which I ploughed on Sunday; I planted it also on Sunday; I did all the cultivating it received on Sunday; I gathered the crop on Sunday; and on Sunday hauled it to the barn. And I find that I have more corn to the acre than has been gathered by my neighbors during this October."

The editor of the newspaper was not a Christian, and the farmer evidently counted on obtaining his sympathy. He did not get it, however, for he simply added these words at the bottom of the communication: "God does not always settle his accounts in October."

The Lord sends rain and sunshine on the just and unjust, on the righteous and unrighteous. But there will be a calling to account, there will be a reckoning, in which the Sunday will play a part. "Remember the day of rest (Sabbath to keep it holy)."

## NOTICE TO TAX PAYERS.

If you wish to take advantage of the half payment plan you must pay the first half of your 1935 taxes before November 30th, then the last half may be paid not later than June 30, 1936, otherwise the entire taxes must be paid by January 31, 1936, to avoid penalty and interest.

In connection with the half payment plan, the Poll Taxes are payable in full with the first half of your property taxes. And, may I remind you that the Poll Tax Receipt must be applied for in person, by telephone, or by a Power of Attorney authorizing someone to pay same for you; or the husband may pay for wife, son and daughter, or vice versa.

Under the new law all persons over 60 years of age, or becoming 21 years of age after January 1, 1936, desiring to vote, are required to obtain an Exemption Poll Tax Certificate, and this Certificate can be obtained from the Collector without cost if applied for in the same manner as above stated for Poll Tax Receipt.

Respectfully,  
L. E. HEATH,  
Assessor and Collector.

## INSTALLS BREAD SLICER.

Mention bread to the average person and they think of it in terms of mixing a handful of dough and baking a loaf in the stove. But in Hondo's modernly equipped City Bakery the making of bread is a commercial undertaking of no small proportions, involving scientific precision and accuracy and the employment of mechanical agencies of the highest development.

Mr. Rath has an investment of several thousand dollars in electrically operated and gas heated machinery for performing every act of bread-making from sifting the flour to wrapping the finished loaf.

His latest addition is an automatic electrically operated machine that will slice and wrap automatically 1800 loaves of bread an hour when operated at its capacity. To do that, it would take three men to feed the loaves at one end of the machine and carry away the sliced and wrapped loaves at the other.

We congratulate Mr. Rath on his splendid equipment and Hondo is to be congratulated on being served by such an enterprise as the City Bakery.

## COMMISSIONERS' COURT.

Commissioners' Court met Monday long enough to canvas and announce the result of Saturday's school election at Castroville. The official count showed the following:

For the bonds ..... 134  
Against the bonds ..... 122

Majority for ..... 12

The court met Tuesday and received the low water concrete bridge across the San Geronimo Creek on the San Antonio-Cliff road just above Cliff in Commissioner Herman Bippert's precinct.

The court was in session again here Wednesday attending to routine matters.

We understand the concrete structure at the Sand Crossing on the Hondo was opened for traffic yesterday. This is the first to be completed of several similar structures now under construction or planned in Commissioner Alfred A. Bader's precinct.

## MRS. AUG. LEINWEBER DEAD.

Mrs. August Leinweber, an aged and highly respected resident of Hondo and vicinity was buried here yesterday under the auspices of the Lutheran church. We hope to have a befitting obituary of this good woman for our next issue.

The Red Cross annual roll call is in progress and Mr. Henry Windrow of Hondo is county chairman. He will welcome the cooperation of all who wish to join the Red Cross.

NOVEMBER ELEVENTH CELEBRATION  
DRAWS IMMENSE CROWDINCLEMENT WEATHER FAILS  
TO CHILL HOLIDAY SPIRIT

Notwithstanding Monday dawned with the first real norther of the winter blowing in biting gusts from the icy plains of the north, several thousand people turned out, from Del Rio on the west and Seguin on the east and all intermediate points, to celebrate Armistice Day in Hondo.

And despite the inclement weather all seemed to be enjoying themselves throughout the day. Some variations from the set program were found necessary but for the most part it was carried out in the order as announced in last week's paper, the opening feature being a football game between a Hondo town team and a Sabinal town team at 10 o'clock on the Hondo High School Athletic Field.

## Game Ends in a Tie.

Playing before a large crowd despite the extreme cold, the Hondo All-Stars and the Sabinal All-Stars played to a 7-7 tie last Monday.

With the wind to their back the Hondo team played a defensive game the first quarter. Taking the ball over about midfield early in the second quarter a few line plays netted a first down. Then Joe Vance swept left end and out ran the Sabinal secondary to score. Windrow's placement was good and the score stood 7-0 for Hondo.

The ball changed hands frequently from then on to the half with neither side threatening. The day was very cold and the passing attack of both teams was nullified. Many passes were attempted but the receivers' hands were too cold to hold onto the ball. Hondo completed two or three to C. Sadler and one to H. Parsons.

McGinnis of Sabinal provided a thrill at the beginning of the second half when he took the kickoff and ran it back to Hondo's 20-yard line. The Sabinal attack bogged down at that point and Hondo punted out of danger.

In the later part of the third quarter Sabinal took the ball near mid-field on a punt and by line plays, principally over the right side of the Hondo line they worked the ball to the eight yard line from which point McGinnis swept left end to score. McGinnis plunged over for the point and the score was tied.

Vance got loose on a punt return in the fourth quarter but the play was ruled out of bounds near mid-field. The Hondo squad advanced the ball deep into Sabinal territory twice in the final quarter but were unable to reach pay dirt.

Both teams played clean hard ball. The blocking of the Hondo club seemed to be somewhat superior to that of the visitors but what the Sabinal boys lacked in science they made up in hustle.

Hondo is to return the game at Sabinal in about two weeks. It is hoped that they will have a good day so that the clubs can function at their best. We want to see that old time passing combination of Finger to Parsons clicking again, as well as

Finger to Sadler or Windrow to Roth.

## Band Concerts.

The celebration proper opened at the Fair Grounds at eleven o'clock with a band concert in the pavilion by the Ninth Infantry Band from Fort Sam Houston. The band came complimentary to the Boosters Club and furnished music at intervals throughout the day.

After a few stirring airs as an opening prelude by the band, during which time the commodious hall had filled to its capacity, Judge R. J. Noonan, in his usual felicitous manner, introduced the orator of the day.

## Patriotic Address.

District Attorney Julian LaCrosse of the Del Rio District was the speaker for the occasion. For about half an hour, Judge LaCrosse reviewed the exploits of the American Expeditionary Forces, praised their valor on the battlefields of France, extolled their loyalty and love for their country and commended an emulation of their virtues to the younger generations following them.

He touched briefly the high points of American achievement under the leadership of outstanding patriots from Washington to Roosevelt and expressed confidence in the future safety of our country so long as our leaders have the support of patriotic and intelligent followers.

The speaker received a great many appreciative compliments on his address from members of his audience.

## Free Barbecue.

By the time the speaking was over the gate to the entrance to the free barbecue was thrown open and there was a rush to the waiting feed. In addition to the barbecued beef and kid, the dinner was further embellished with frijoles and cowboy stew so that a sufficient variety of food was available to suit varying tastes. The dinner was served cafeteria style and, although it took nearly three hours to feed the multitude, there was ample food for all.

## Roping, Rodeo, Etc.

While some of the out-door events had to be omitted on account of the inclement weather, such as the tournament, etc., the calf roping attracted a number of entrants. The following results were compiled from bookkeeper Guido Richter's official record of these events.

**BRACKWAY CAFE ROPING:**  
First Contest, 21 entries—1st, Clyde Watkins, time 4:00; 2nd, M. Burger, 8.5; 3rd, Ervin Lutz and Robert Burger, 11 seconds.

Second Contest, 17 entries—1st, Hy. Schuch, time 9; 2nd, Paul Richter, 10.1; 3rd, E. J. Schroeder, 15 seconds.

Third Contest, 20 entries—1st, L. Heyen, 6.3; 2nd, M. Burger, 7.1; 3rd, L. Boehle, 10 seconds.

Fourth Contest, 21 entries—1st, M. Burger, time 6.1; 2nd, E. Lutz, 7.3; 3rd, F. Lutz, 8 seconds.

Fifth Contest, 13 entries—1st, W. Heyen, time 6.1; 2nd, E. Lutz,

8; 3rd, Paul Richter, 8.1 seconds.  
Sixth Contest, 9 entries—1st, M. Burger, time 6.1; 2nd, R. Burger, 8.1; 3rd, Paul Richter, 9.1 seconds.

In addition to the roping there were two matched horse races. We are without access to the official record but are informed that in the first race of 500 yards Mumme's mare won over Boot Heyen's horse. In a second race between Mumme's mare and Toby Koch's horse the race was declared a tie.

## Dancing Class Entertains.

An additional attraction was the dance program presented by Miss Sis Merritt, featuring the members of her dancing class. The program was given about 1:30 P. M. in the Fair Grounds dance hall before a large audience. The performers were attractively and cleverly costumed, each appropriate to the dance performed. The following was the program.

Armistice Tap: Susie Muennink, Georgia Mae Muennink, Bonnie Jack Cameron, Alma Nester, Mary Ann Noonan, Judy Lacy, Jean Warden and Laura Lee Leinweber.

The Little Pigs who were not afraid of the Big Bad Wolf: Kathleen Brucks, Jean Goodloe, Harriet Goodloe and "Doolie" Crow.

Over Seas Tap: Fay Jean Bedell. Hai and his Chorus Girls: Pat Kohlman, Willie Jean Nester, Sara McCuda Cameron, Jaclyn Hollmig, Laura Ann Muennink and Hal Hunter.

Doughboy Taps: Susie Muennink. Dainty Miss: Sara Maude Cameron.

Petite Jazz: "Doolie" Crow. We Wish We Were Twins: Alma and Willie Jean Nester.

Tapping the Blues Away: Hal Hunter. The Challenge: Laura Lee Leinweber and Mary Ann Noonan.

F. F. A. Project Show. An interesting feature of the day's entertainment was the F. F. A. boys' exhibit. We are indebted to the Club Reporter, Hugh Meyer, for the following report of the same.

Hondo's F. F. A. chapter put on a project show and crop exhibit before the crowd of approximately 6,000 people who gathered for the annual Armistice Day celebration here on November 11th.

The project show consisted of some 23 calves and 18 hogs. These animals are all the property of the boys, who are feeding them out or breeding them, as the case may be, as their projects for their vocational agriculture course this year. While the animals showed very little finish, they were all growing well, and the group included some exceptionally select individuals. The lack of finish was due to the fact that these animals were on pasture until about six weeks ago.

The crop exhibit included specimens of seed and products from each of the major Medina County crops. The grain sorghums were exceptionally good, these crops being large and well matured this year, and several of the boys had fine grain. The exhibit included cotton, corn, hay crops, grain sorghums, vegetables, bees and honey, and specimens of principal feeds used by the boys in fattening their animals.

The department of Vocational Agriculture was added this year in Hondo High School, with Mr. Clifford Sadler of A. & I. of Kingsville, as instructor.

When Mr. Sadler was asked about the project show, he replied:

"The Hondo chapter of the Future Farmers of America did a splendid piece of work in putting on their first project show. We hope to make the project show an annual event along with the November 11th celebration.

"I congratulate, and compliment each boy on his work and cooperation. If they will but follow the example they set in putting on the project show, each will be successful in whatever he undertakes.

"Some of the livestock will be carried to the San Antonio Livestock Show in February. I hope each boy's animals will be in condition to be shown. With proper care of the animals we should be among the winners."

## Miscellaneous Amusements.

Refreshment stands, keno games, several raffles, and other amusements served to keep the crowd busy and forgetful of the cold, and after a busy day the grand finale came with a grand dance at night.

## The Dance.

The large dance hall at the Fair Grounds was well filled with merry dancers, where Jimmie Klein's Orchestra kept the merrymakers "tripping the light fantastic" until a late hour.

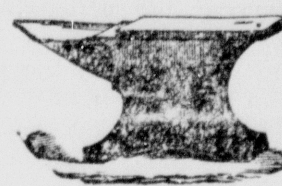

Though handicapped in various ways the affair was a success both financially and socially and the Boosters Club is to be congratulated on the achievement.

## CLAUDE C. DABBS BURIED.

Claude C. Dabbs, who died in Bisbee, Arizona, Monday, November 4, 1935, of pneumonia, was brought here by truck and buried in the Hondo cemetery Saturday afternoon, Rev. R. W. Merrill, pastor of the Baptist church, conducting the funeral services.

The deceased was born here in 1911 and was, therefore, only twenty-four years of age. He is survived by his widow, a small daughter, his mother and other relatives.

The bereaved ones have the sympathy of all in their untimely loss of their loved one.

## ABIDE BY SOUND PRINCIPLES.

A call to all farm cooperatives to abide by sound cooperative principles and not to rely upon governmental assistance, has been issued by the National Cooperative Council of Washington, D. C. The Council represents cooperatives with 1,260,000 members, doing an annual business in excess of \$1,000,000,000.

In its resolution, the Council laid down a number of guiding principles essential to the success of co-ops. It pointed out that business cooperatives are called upon to meet the competition of keen, well-financed organizations—and that to function properly under such conditions the cooperatives must be equally well financed and established. A substantial bank balance, and first-class executives to carry on the management, are vital. And to keep the co-op going, an aggressive, continuous membership campaign should be carried on, with the purpose not only of increasing the membership, but of keeping members informed and interested in the work of their organization.

The Council speaks with the voice of experience, breeder of wisdom. Political aid to an agricultural or any other group is necessarily transitory—dictated as it is by partisan interests, it cannot have stability and permanence. The co-ops which are making progress are depending upon their own efforts—not on outside aid, and they are following such simple, yet essential principles as those laid down by the Council.—Industrial News Review.

## "CAR NUMBER 20".

According to an advertisement of a large life insurance company, the driver of every 20th car whether man, woman or child, will have an accident before the year is over—if the accident experience of 1935 duplicates that of 1934. And statistics for the first six months of the year indicate that little if any progress has been made in curbing the dangerous driver.

Every driver should decide for himself whether he wants to be at the wheel of "car number 20." The decision is really within his power. He can drive carefully, in accordance with the law and good judgment—he can keep his speed to reasonable levels, maintain his car in first-class mechanical condition so far as safety devices are concerned, and work on the basis that it is better to give up his right-of-way than risk a trip in an ambulance. Or he can take chances—he can regard crowded streets and highways as playgrounds, where his reckless and adventurous instincts may be indulged to the full without regard for others or himself.

The laws of chance are immutable—and every motorist who is deliberately careless, can be certain that eventually he will come a cropper. He may get away with reckless acts a thousand times—the thousand and first time he will pay the price. Gambles with death always lose—the dice are loaded before you start the game.

One car in twenty will be the cause of someone's death or maiming this year! Are you going to be the 20th driver?—Industrial News Review.

## LESS INCOME—MORE TAXES.

A chart in the New York Times presents a vivid picture of the adverse effects of rising taxation on our national spending power.

It shows that in 1929, the nation's income was \$81,000,000,000. The cost of operating all units of government was \$13,000,000,000. The cost of interest on government obligations was \$7,000,000,000. As a result, government took \$27,000,000,000—24 1-2 per cent of our income—leaving \$54,000,000,000 for us to spend.

In 1934, the national income had dropped to \$60,000,000,000, including money borrowed by government which must be repaid in the years to come. The operating cost of government was \$15,500,000,000, and interest charges on government obligations were \$5,000,000,000. This total, \$20,500,000,000, amounted to 34 per cent of our national income (Continued on last page).

## A YOUNG PIONEER

When several hundred families were sent to Alaska from the Middle West to settle the Matanuska Valley, the Red Cross sent a nurse, Madeleine de Foras, to remain with them for a year to help protect their health. Among the first friends she made were the little pioneer, Arthur Hack, 4 years old, and "Prince," the pup who went with his young master to Alaska.

## OWLS SMOTHER YELLOW-JACKETS 21 TO 0.

The Owls defeated the Sabinal Yellowjackets Friday by a score of 21-0 in their last home game of the season. The Owls uncorked a surprising defensive and offensive attack and gave Hondo fans a hope for a victory over Uvalde, the present leaders in the District 36-B race.

The Owls scored in the opening minutes of play when, after several plays, Rothe ran 30 yards on a fake pass to score. Oefinger's kick from placement was good for the extra point.

Although nearly the entire second quarter was played in Sabinal territory, the Owls failed to score. They scored, however, early in the second half, when Rothe, after fumbling, picked up the ball and ran 26 yards to cross the goal line standing up, while Sabinal looked on in surprise. Oefinger again made the extra point.

The Owls scored again soon after, Rucker having intercepted a pass on the mid-field stripe. On the third play after the interception, Rothe ran the remaining distance to again cross the goal line standing up. Oefinger's kick from placement was again good for the extra point.

Rothe and Oefinger were outstanding players for the Owls, Rothe doing a lot of the ball carrying and accounting for all three touchdowns, while Oefinger's three perfect kicks from placement out of three tries were exceptional.

## COYOTES DEFEAT WILDCATS.

The Uvalde Coyotes defeated the Del Rio Wildcats Friday afternoon by a score of 7-6, the point after touchdown being the margin of victory. Although the Wildcats outplayed the Coyotes in every way, they failed to click when they were near the Coyotes' goal line. Three times in the final quarter, the Wildcats were inside the Coyotes' five-yard line, but on all occasions the sterling Coyote line checked their advance.

Next Friday the Owls meet the Coyotes in Uvalde. Although Uvalde is now the leader in the district race, the Owls will not give in until the game is over. Perry Winkle in the San Antonio Evening News gives the Owls an even rating with the Coyotes and says with a few breaks the Owls can win. Come on, fans, let's go to Uvalde and help the Owls win.

## OWLS VS. COYOTES.

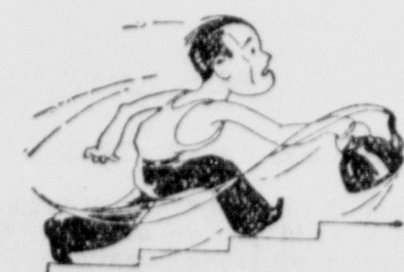

The Owls will play their last game of the season Friday afternoon when they invade the lair of the Uvalde Coyotes. As many as can should go along to root for the Owls, because they need plenty of support if they are to return victorious. There will probably be several busses to take fans to Uvalde, besides many other cars. Therefore, everyone should try to go and support the Owls. The Coyotes, you know, are one of the strongest teams in the district this season, if not the strongest. The game will start promptly at 2:30. The price of admission is not yet known, but it will probably be 35 and 75 cents.

COME ON, LET'S GO TO UVALDE AND HELP THE OWLS WIN.

## DISTRICT FOOTBALL.

In a hotly contested struggle in Del Rio last Friday afternoon the Wildcats lost to the Uvalde Coyotes by a one point margin, 7 to 6. In the matter of offensive football the Wildcats had the edge and probably made twice as many first downs as Uvalde, but they do not pay off on first downs. Del Rio was knocking at the door several times but could not get up quite enough power to go over.

two wins in conference games and no defeats. The dope says they should stay in front. That remains to be seen. Showing no more offensive power than they did against the Wildcats they will have trouble with the Owls. And the Del Rio club gained much more yardage against Uvalde than they did against Hondo.

Rothe was the big scoring ace in the Sabinal game. Lest you forget, however, there never was a back that could go without some blocking ahead of him. On that fake pass how do you suppose that big hole appeared in the middle of the line? If you really want to get a little inside dope on football, keep your eyes on the offensive guards. They will usually lead you to the play and in the meantime you will have seen a lot of what makes a ball club click.

All Texas is rejoicing over the S. M. U. Mustangs' victory over U. S. L. A. out in California Monday. We of the Southwest Conference never get any bids to the Rose Bowl game and we sometimes feel that out there they really do not WANT the best club they can get.

Asherton took it on the chin again. About the only game they have won is that early season slip-up on Sabinal. Well, yes, they probably defeated Eagle Pass but that does not really count as a victory. Ish, of Pearsall, says that the second string of any team in the district can beat the Eagles.

## FARMERS HOLD PROJECT SHOW AND PRODUCE EXHIBIT.

Making about \$35, having a successful project show, and putting on a produce exhibition that had many admirers, the Farmers had a big day Monday. The produce exhibit was in the dance hall and included all Medina County field crops, poultry products, dairy products, garden vegetables, and samples of feed used in finishing farm animals. The booth was decorated in blue and gold, the club colors.

The livestock project show included 23 calves, 17 pigs, and one sheep. The calves averaged 520 pounds in weight, and the pigs 10 pounds. Among the calves were several very fine specimens including one registered Hereford bull belonging to Roy Bohlen. There were also some very good Duroc and Berkshire hogs.

We hope to hold more such shows later in the year, as we work up considerable interest in our work among the stockmen and farmers of this county.

## FIRST GRADE.

Our room mother, Mrs. Hollmig, gave us a Hallowe'en party Thursday before Hallowe'en. The plates were tied with a big orange bow, and in them were Jack-o-lantern cookies, sandwiches, candy, cocoa, and favors of a horn. The place cards were black brooms.

The guests were blindfolded and tried to pin the broom on a witch. June won the first prize of a color book, and Lela won the booby prize, also a color book.

Hallowe'en Day we dressed up in costumes and paraded.

We welcome to our class a new pupil, Nora Breiten.

We have been studying about wheat and each one has planted some in a tray, to watch it grow.

When we joined the Health Band, we each one got a box of Ralston and are going to eat hot cereal for breakfast each morning.

We have a new Health House. In each open window there is a picture of a student. As long as we keep our teeth and finger nails clean the window will stay open.

Miss Fly is reading us about Joe Boy and we have furnished the house on the sand table with new furniture like Joe Boy's.

## JUNIOR WHO'S WHO.

What junior girl is it that lives in the North section of town and drives a dark green Willys Knight (and the way she can drive a car makes some boys envious)? She has brown eyes, brown hair, an olive complexion, and is rather small. She has been with this class since starting to school and always makes good grades. This year she is president of the junior class.

The subject of this discourse is a member of the choral club and of the Sub-Debs. She is an all-round athlete and seems to pep things up when she appears. Her ambitions are high, but she will get what she goes after.

## —Owlets— SLUMBER PARTY.

The Young Women's Sunday class of the Baptist church entertained with a slumber party Sunday night at the home of Mrs. Roland Gaines.

The feast served at midnight consisted of pimento cheese and ham sandwiches, tomatoes and lettuce, pickles, fritos, marshmallows, and cake.

The guests included Misses Ginger Fusselman, Zonie Taylor, Gwen Gray, Mary Belle Embry, Adele Scott, and Merle and Jean McCall.

## —Owlets— FOURTH GRADE PICNIC.

The Fourth Grade had a picnic out at the Masonic Water Hole one day last week. Several of the mothers took them. After playing several games, a picnic lunch of sandwiches, pickles, olives, fritos, fruits of all kind and cookies and cakes, was spread. Everyone enjoyed their first picnic this year.

## SHE'S THE GIRL WHO HANDLES YOUR TELEPHONE CALLS

This is the girl who handles your telephone calls.

Every part of the far-flung Bell System organization exists largely to help her do the best possible job of connecting you with the people to whom you want to talk.

Linemen cling to icy poles to keep the voice-paths open to her touch. Staff experts of American Telephone & Telegraph Company, parent company of the System, hunt better methods for her to use. Scientists of Bell Telephone Laboratories seek new inventions to place at her finger-tips.

And the factories and shops of Western Electric, supply unit of the Bell System, are busy making the insulators, the wires and the equipment she needs to flash your voice around the block, across the state, or across the nation.

It is largely because this group of specialized organizations stands behind her... and has done its job so well for her... that she is able to give you the good, economical telephone service you receive today.

## PAPAGO BOWL.

In a sun-drenched land where the West looks south  
I watched the birth of a Papago bowl,  
A red-brown bowl with a low wide mouth  
Rimmed by a black-lined scroll.  
A silver coin in a lean brown hand,  
A word or two and the thing was done—  
I carried the bowl to my own cool land  
Under the northern sun.

And no one whispered me, friendly-wise,  
The secret that now I have come to know:  
That wheresoever the pottery lies  
There will the Gila flow;  
There will the desert-born mesquite  
That fired to hardness the molded clay  
Offer the boon of its scented heat  
To bless the wintry day.

With a silver coin I have bought the sun  
And the night-wind's song to the desert sand;  
I have garnered the warmth of the world in one  
Bowl from a lean brown hand.  
With a word or two I have snared the spell  
Of stars that silver the cactused knoll,  
And the desert is mine in the charms that well  
From the heart of a Papago bowl.

## IN MEMORY OF GRANDMOTHER MECHLER.

Dead, yes, dead do we call her,  
Grandmother, oh must this be you?  
A flower faded and vanished,  
A heart that was tender and true.

Gone, yes, gone she has left us,  
Grandmother, forever we did part.  
Lonely, sorrow does always come  
Sorrow for us in every heart.

Heaven, yes heaven, we wish her,  
Wishes, yes, not only a few,  
Grandfather sad and lonely,  
And children grief-stricken too.

Farewell, beloved one, we miss you  
We mourn your presence bright.  
Since you have gone, dear Grandmother,  
Our days seem dark as night.

Your loved companion misses you  
And at your vacant chair  
He pauses to mourn in silence  
For Grandmother is not there.

Dearest beloved one, we must lay there  
In the peaceful grave's embrace.  
Thy memory will be cherished  
Till we see thy heavenly face.

RESOLVED,  
That in the death of Brother Wil-  
son our order and lodge sustained the  
irreparable loss of a worthy brother,  
his family a devoted husband and  
father, and his county that of a most  
excellent citizen.

BE IT RESOLVED,  
That while we deplore our loss, we  
humbly bow to the will of Him Who  
doeth all things well, knowing in our  
hearts, even in the presence of death,  
which without revelation is dark and  
gloomy, that he shall be revived by  
the evergreen and ever living sprig  
of Faith, in the merits of the Lion  
of the Tribe of Judah, which  
strengthens us to look forward with  
confidence and composure, to blessed  
immortality.

BE IT RESOLVED,  
That a copy of these resolutions be  
spread upon the minutes of this

### FROM BIRY.

Mr. and Mrs. Bader and daughter,  
Anna, attended church services in  
Castroville on All Saints Day.

Mr. Marvin Haass is visiting his  
sister in San Antonio.

Mrs. Theresa Bendele of San An-  
tonio is visiting with relatives.

Mr. and Mrs. Franklin rowler and  
babe and Miss Noella Heath of Free-  
er are visiting Mr. and Mrs. S. B. Heath.

Rev. Deal of San Antonio held  
services here Saturday night.

Mr. and Mrs. Tom Watson of Hon-  
do spent the week-end here.

Mr. and Mrs. Johnnie Love and  
family of D'Hanis visited Mrs. Alice  
Littleton and daughter Sunday.

### FROM YANCEY.

Mrs. Joe Burgin and daughter,  
Miss Dorothy, were in our burg for a  
short time Saturday, while Mr. Bur-  
gin and son, Claude, were looking af-  
ter affairs on the farm.

Mrs. Mary Gilson, who is visiting  
her son here, took suddenly ill last  
Thursday, and it became necessary to  
have a physician for her. Dr. Smith  
was called, and she seemed to be im-  
proving, but later she had to be tak-  
en to the Medina Hospital.

Mr. Elroy Mofield has been suf-  
fering with a bad knee for several  
days and was taken to the hospital  
for treatment.

Rev. Smith, the district missionary  
for the Rio Grande Baptist Associa-  
tion, preached at the Baptist church  
here last Sunday morning.

Rev. Banks and family, Mr. and  
Mrs. J. G. Weekley, Mr. J. N. Wil-  
son and family and probably others,  
attended the Annual Conference in  
San Antonio Sunday.

Mrs. Sophie Sandler of Longview,  
who has been visiting here with Mrs.  
S. P. Children and Mr. H. P. Wilson,  
sister and brother respectively, left  
for her home one day last week.

We are glad to report that Mr.  
August Bohnfalk is improving from  
his recent illness.

Mrs. George Worley of Uvalde  
spent several days with her daughter,  
Mrs. Dan McCrea, on Sunday. Her  
daughter, Miss Beulah, came for her  
and took her home.

Hallowe'en parties were celebrated  
in several places on October 31st.  
Much fun and frolic were indulged  
in. A very quiet evening for the  
usual capers of former days.

Mrs. Dan McCrea entertained the  
little folks of the community. Their  
parents accompanied them and in-  
cidentally enjoyed the fun.

Mrs. Harrison Wilson and family  
were in San Antonio last Friday vis-  
iting their daughter, Miss Loma, who  
is a student at Santa Rosa Infirmary.

Mr. Leo Pettus was laid up for  
several days last week. Mr. Barnett  
McCaughan assumed the responsibil-  
ity of bus driver.

Mr. and Mrs. L. A. Saathoff and  
mother of Upper Hondo were visitors  
at the home of Mr. and Mrs. Henry  
Faseler last Sunday.

## BRIDE-ELECT HONORED.

On Wednesday, Nov. 6, Miss  
Esther Bohlen, a bride-elect of the  
month, was honored with a miscel-  
laneous shower at the Quibi Lutheran  
parish hall. The color scheme of the  
day was carried out in green and  
white. The little Miss Alnita Jean  
Saathoff, dressed in white, led the  
honoree, who was attractive in green,  
to her seat of honor, which was de-  
corated in green and white, while Miss  
Nettie Stiegler played a march on  
the organ. The following toast was  
then read by Miss Stiegler:

To Esther young and lovely

A bride soon to be

A trip you're going to take, in love's

golden ship,

On life's beautiful sea.

But if at times this sea is rough and

stormy,

Just be true,

And love and courage will bring to

you

Days sweet and calm.

Friends have come from far and near

To bring you gifts,

With each a wish for luck and hap-  
piness.

What each one's for, you can easily

tell,

Just a little advice.

The rolling pin is for cakes and pies,

And not for Clarence's head

If he your cooking should despise.

But on this day we'll only say

We wish you love and happiness

A nice little husband.

And all other wealth.

Little Miss Alnita Jean Saathoff

then brought in loads of gifts on a

green and white decorated wagon.

The gifts were then opened by the

honoree and admired by all, after

which Miss Bohlen thanked each and

everyone for the beautiful and use-  
ful gifts.

Refreshments consisting of chicken

salad on shredded lettuce, saltines,

cookies and cocoa were served.

Green and white nut cups filled with

green and white mints were plate

favorites.

About 60 guests registered in the

handpainted bride's book, made and

presented by Mrs. C. J. Stiegler, and

presided over by Miss Ida Balzen.

Hostesses were Mrs. Walter Saath-  
off and Miss Della Saathoff.

## Don't Guess But Know

Whether the "Pain"  
Remedy You Use  
is SAFE?

Don't Entrust Your  
Own or Your Family's  
Well-Being to Unknown  
Preparations

THE person to ask whether the  
preparation you or your family  
are taking for the relief of headaches  
is SAFE to use regularly is your  
family doctor. Ask him particularly  
about Genuine BAYER ASPIRIN.

He will tell you that before the  
discovery of Bayer Aspirin most  
"pain" remedies were advised  
against by physicians as bad for the  
stomach and, often, for the heart.  
Which is food for thought if you  
seek quick, safe relief.

Scientists rate Bayer Aspirin  
among the fastest methods yet dis-  
covered for the relief of headaches  
and the pains of rheumatism, neu-  
ritis and neuralgia. And the experi-  
ence of millions of users has proved  
it safe for the average person to use  
regularly. In your own interest re-  
member this.

You can get Genuine Bayer  
Aspirin at any drug store—simply  
by asking for it by its full name,  
BAYER ASPIRIN. Make it a  
point to do this—and see that you  
get what you want.

## Nerves

Do they torture you by day?

Keep you awake at night?

What is it that keeps hospitals open and doctors  
busy? NERVES.

What is it that makes your face wrinkled and  
makes you feel old? NERVES

Nine times out of ten it's NERVES that make you  
restless, worried, haggard.

## Nerves

Do they make you Cranky,  
Blue--give you Nervous Indi-  
gestion, Nervous Headache?

When nerves are over-taxed, you worry over  
trifles, find it hard to concentrate, can't sit still.

Nerve Strain brings on Headache.

Nervous people often suffer from Indigestion.

There may be absolutely nothing wrong with the  
organs of digestion, but the Nerves are not on the  
job to make the organs do their work properly.

## Nerves

Do they interfere with your  
work; ruin your pleasure; drive  
away your friends?

You're cheating yourself and the man who pays  
you if you work when your NERVES are not  
normal.

You can't have a good time when you are nervous.

You can't make or keep friends when you are  
keyed up and irritable. You may excuse your-  
self, but to others you are just a plain crank.

## Getting a Job and Getting Ahead

By Floyd B. Foster,

Vocational Counselor, International Correspondence Schools

### Make Your Letter of Application Tell and Sell

A WELL-KNOWN advertising man once said, "Anything that can be sold at all can be sold by the written word." Certainly it is true that many men have been able to take the first, all-important step in "selling" themselves to an employer by a well-written letter.

The point is to make your letter both tell and sell. Put yourself in the employer's place. "Who are you? What have you done? What can you do that leads you to believe the man you are writing to could use your services with profit to himself?" These are the things that interest the employer and that you must have clear in your own mind before you write your letter.

Remember that you are asking someone to buy your services. The mere fact that you want a job doesn't interest him. You must convince him that the deal will be advantageous from his point of view. Be sure that your letter is neatly written, for your own appearance and other characteristics will be judged by it just as they would be by the manner in which you presented yourself for a personal interview.

An enclosed, stamped, self-addressed envelope makes it easy for your prospective employer to reply, granting you an interview. Further, it is evidence of your ability to put yourself in the other fellow's place, and many great businesses have been built on the ability of those directing them to put themselves in the place of the prospective purchasers and figure out what it is they really need.

This shop is equipped to do all kinds of commercial printing and our prices are reasonable. We can also handle your orders for lithographing, embossing or blank-book manufacturing. When it's office or commercial stationery ring telephone 127 first.

## ONE OF THE "DAMES".

A large cast of amusing as well as beautiful players is included in Warner Bros. musical, "Dames", featuring Dick Powell, Joan Blondell and Ruby Keeler, which comes to the Colonial Theatre Monday and Tuesday nights. A comedy trio includes Zasu Pitts, Guy Kibbee and Hugh Herbert. And lots of beautiful "dames" and catchy tunes.

Mr. and Mrs. L. G. Strawn have had as their recent guests their daughters, Misses Lyla and Jean Strawn of San Antonio, Mrs. Iris Shelton of Beeville, Mrs. Lois Ann Myers of San Angelo, and Mrs. Myra Weiss of San Antonio, and their sons-in-law, F. Glenn Myers and A. P. Weiss. Lyla Strawn, after a brief visit with her sisters in San Antonio, left for St. Petersburg, Florida, where she has accepted a position in the advertising department of Holsum Cafeterias, Inc.

Among those here for the funeral of Claud Dabbs Saturday were his two sisters, Mrs. Frances West, and son Sherman, and Mrs. Annie Mitchell and daughter, Felix, Casper and Frank Dabbs, and Mrs. Josie Gerdes and son of Bisbee, Arizona; Mr. Ernest Dabbs of Victoria, Mrs. Gus. Proctor and grandson, Billie Louis, and Mr. and Mrs. Harold Mansfield of San Antonio.

Lawrence Reymann was here Wednesday from San Antonio visiting friends and asked us to give his regards to all those he failed to see. Lawrence informed us that he is now a full-fledged bartender in San Antonio. But he did not ask us to come in and "have one on the house". Perhaps Lawrence has already learned that the goods he handles is "made to sell, not to drink".

Mr. and Mrs. Blocker plan to leave Monday for New York, from which port they will sail November 22nd for his new assignment at Fort de France, Martinique, in the West Indies.

The Managing Editor of this paper and his Assistant Editor, together with a party of mutual friends, spent a pleasant evening Tuesday evening in the home of Mr. and Mrs. C. F. Haas. After enjoying a delicious meal prepared in a scientific manner by Mr. and Mrs. C. E. Bottorff, Jr., representing Kitchen Craft Utensil Manufacturers, we were treated to an instructive lecture on health foods by Mr. Bottorff. The evening was both pleasantly and profitably spent.

The first real norther of the winter arrived with a chilly breath early Monday morning, and Armistice Day was a raw cold day to people accustomed to balmy summer weather. The wind settled during Monday night and the first frost of winter was visible in low places Tuesday morning. The weather moderated rapidly and it was again summery by Thursday, but this morning a cold drizzly rain from the northeast is making one wish for summer again.

## QUIHI NOTES.

And bare Abraham a son in his old age, at the time of which God had spoken to him. Gen. 21: 2.

At last the great event. After years of waiting, praying, scheming in foolish self-help, still hoping while every sunset seemed to diminish the physical possibilities and every new year seemed to undermine the great promise. The indicator of faith on the dial of his religious consciousness was constantly vibrating, charging and discharging, as it were, often standing on neutral, just watchful waiting. That's the way of the Lord. He has His own tactics. His own time, His own disposition and termination, stripping faith of all human scaffolding and resources and intervention, lest man should boast of his own doings. Again it's grace alone. Again, man must live by faith, abiding by the word of God, curbing his impatience, checking his own shortsighted calculations. It's the way for Abraham and for all of us. And it's the only sure way, that all our events and developments should depend on God's actions and decisions; otherwise all hangs in the air, dangling in irksome insecurity and uncertainty. Indeed, the child of his old age was a wonder-child. Every child is that, in the last analysis. The world being full of children, does not alter this fact. Procreation and conception are not man's invention. It's the Lord's arrangement as much as He controls the embryo in life and sex and growth, in soul, mentality and character. Nor is He barred by the limitation of age in man, if He prefers to choose extraordinary ways. And is it so hard to see what this uncommon birth has in common with another miraculous birth in the New Testament, that of the Christ-child, whose prototype and forerunner the son of Abraham was to be?

It was a pleasure to take in the last program of the Luther League both in the regular and voluntary numbers. And many have availed themselves of the opportunity. It's a diversion looked forward to by many. What we have, we gladly give. Three were welcomed into membership, the Misses Corine and Irene Nietenhoefer and Lucille Boehle. Going in the right direction. A debt of \$50.00 was cancelled for the congregation, and gladly acknowledged, to be sure. And so will the notion to have the premises put in trim be hailed with joy. They seem to be in need of it. Here are the assignments for the next program: Recitations, Hy. Hartmann, Miss Lorine Bohlen; select readings, Miss Esther Neumann, Mrs. W. Schuchle; vocal selections, Miss Pauline Saathoff, Mr. Otto Lindeburg; instrumental number, Mrs. F. Boehle. "Speed away!"

Watch next week's issue of the paper for details of our Thanksgiving Day program. Great was our last year's October festivity, we'll go a notch higher this year, if things "pan out" well. Tell your friends about it. Come early. Something going on every minute.

Announcements for November 17: German service at 10:30; evening service at 7:15; Sunday school and Bible classes usual time. Let Sunday tune you up for the weekdays. Come.

## GREAT ROMANCE OF AIR WAR-RIORS BOOKED BY COLONIAL.

"Devil Dogs of the Air", a mighty romance of the flying marines, is scheduled as the feature attraction at the Colonial Theatre Friday and Saturday nights.

The picture is based on a story by John Monk Saunders dealing with the aviation corps of the U. S. Marines. It again brings together the inimitable trio who appeared in "Here Comes the Navy", James Cagney, Pat O'Brien and Frank McHugh. Margaret Lindsay has the leading feminine role.

Included in the supporting cast are 1,000 Marines who take part as extras or in bit parts.

There are any number of daredevil flying stunts, with planes crashing and men leaping from their blazing ships in parachutes. Spectacular maneuvers of the Marine Corps, with the U. S. S. Macon, as well as scores of airplanes in battle formation and a dozen warships participating, add to the many thrills in the picture.

Running through it all is a fascinating romance in which one pretty girl holds a whole corps of marines to heel.

## CARD OF THANKS.

We wish to express our grateful appreciation to our many dear friends for their acts of kindness and expressions of sympathy extended us in the death of our beloved husband and father.

We very gratefully appreciate the many beautiful floral offerings, every act of courtesy given in the home, and especially do we thank Rev. Merrill for his services, and loving words of sympathy and consolation, which were the means of great comfort to us in our sad hour of bereavement.

Words are inadequate to fully express the deep feelings of our hearts for the many beautiful acts of love and service shown us at this time. May God abundantly bless each of you.

MRS. ISAAC WILSON,  
And FAMILY.

## A PARTY.

An enjoyable party was given at the home of Mr. and Mrs. Rudolph Krenmueller on Saturday, Nov. 9, with Mrs. Rudolph Krenmueller and Adeline Krenmueller as hostesses. Zinnias and fern were used to decorate for the occasion.

After the guests arrived games were played. First everyone tried to pin the donkey's tail on a donkey that was pinned to a sheet on the wall. Prizes went to Harold Stiegler and Otto Grube.

Florence Williams received the prize for guessing the name of a toy Mickey Mouse. Prizes were also given for guessing the number of grains of corn in a jar. Frances Sauter won high and Harry Schweers low. Other games were played until a late hour. Refreshments of cake and coffee were served to thirty-four guests.

## ATTENDING TRAINING SCHOOL.

Miss Sylvia Eckhart, daughter of Mr. and Mrs. Willie H. Eckhart, is making good, training as a nurse in the Hotel Dieu Hospital in El Paso, Texas. ## FINE FARM FOR SALE.

The L. J. Schmidt 640-acre farm, 1 1/2 miles northeast of Yancey and one mile east of Yancey-Hondo road, is for sale on easy terms. This is a beautiful tract of land lying in a square and is faced along the entire south side by a public road. It is a fertile, sandy loam soil and every foot is tillable. There are three fields, one of 185 acres, another of 145 and another of 10 acres, or a total of 330 acres in cultivation. The balance of 310 acres is divided up into two pastures and a trap for work stock, and all three are accessible to and are watered by a large earthen tank. This tank is kept constantly supplied by the overflow from a never-failing well nearby. The well is fifty feet deep and has never failed in water. It is equipped with windmill. Also there is a 90-foot drilled well with a head of 45 feet of water within 100 yards of the center of the tract. Place is well fenced throughout, has two comfortable tenant houses, big double barn and other out buildings. Property is located in a good neighborhood, in easy walking distance of a first class agricultural high school, postoffice, store, and Methodist and Baptist churches. Place will be sold at a moderate price, on easy terms. The man wanting a good farm home or a farm investment, close to both a proven oil and gas field, will do well to see or communicate at once with either the owner or either member of the HONDO LAND CO.

## RESEARCH FINDS WAY TO KEEP PARASITES OUT OF FARM PROFITS

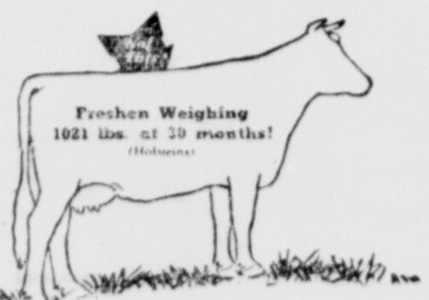

"Feeding worms and other parasites is almost as big an industry today as feeding livestock and poultry," says E. B. Powell, manager of the Purina Research Farm at Gray Summit, Mo. "But it's a mighty unprofitable business for the man who does the feeding! Every year a fortune is literally eaten up by intestinal worms, lice, mites, flies, and similar parasites. These are the things which cause immense loss of life, slow growth, unwholesome gains, and low production in flocks and herds. This is a needless waste."

According to Powell, much of the money that now goes to parasites can easily be turned into clear profits for the farmers of this country. It is for this reason that years of research have been devoted to the Purina Laboratories to work out a farm sanitation program that will put a halt to the annual raid of parasites. The outcome has been the development of a line of sanitation products available at any store where Checkerboard feeds are sold. Through them every American farmer has the means of preventing costly livestock and poultry diseases. This research and its resultant development of disease preventive products give added support to the old adage, "an ounce of prevention is worth a pound of cure."

## Dairy Expert Says Nature's Way Best in Growing Heifers

Once again there is an unusual amount of interest in growing out heifer calves. This has been brought about primarily through the higher prices dairy cows are bringing. As is usually the case when dairy farmers find it cheaper to raise heifer calves than to buy cows, the question arises as to which is the best way to grow them out.

"Many dairymen give their heifer calves a good start," says W. R. Arends of the Dairy Department of the Purina Mills, "then, thinking that a good start will carry them through, turn them out to rustle for themselves. They are allowed to drift along until it is thought they are old enough to breed. After being bred, they are again turned on pasture, and are not given extra feed and care until possibly a month or so before freshening. The result is an undeveloped heifer at freshening time and, naturally, a great portion of her milking ration the next year of two is used to continue the growth which she should have made before she first calved. Sometimes, it's as late as the third calf before this heifer is fully developed and grown out into a profitable cow."

"The ultimate aim of any dairy farmer growing out heifers," says Arends, "should be to grow them and develop them fully before freshening time. This, of course, is the most economical way to do it. Nature is not going to cheat them out of their growth. They either grow before or they continue to grow after freshening, when they should be giving all of their efforts to turning feed into milk. Whenever first-calf heifers have to use part of the milk-making feed for growth and development, they materially cut down a dairyman's opportunity to make money on them through first lactation period."

"Experiments run at the Purina Research Farm at Gray Summit, Mo., show that heifers can be grown out and fully developed and brought into production from two to three months earlier than the normal for the breed and because they are fully grown and fully developed, they make profitable heifers in their first lactation period. The program followed and recommended at the Purina Farm not only gives the calves a good start, but keeps them coming and growing until they are fully developed, at which time they are brought into the milking barn as full-grown cows."

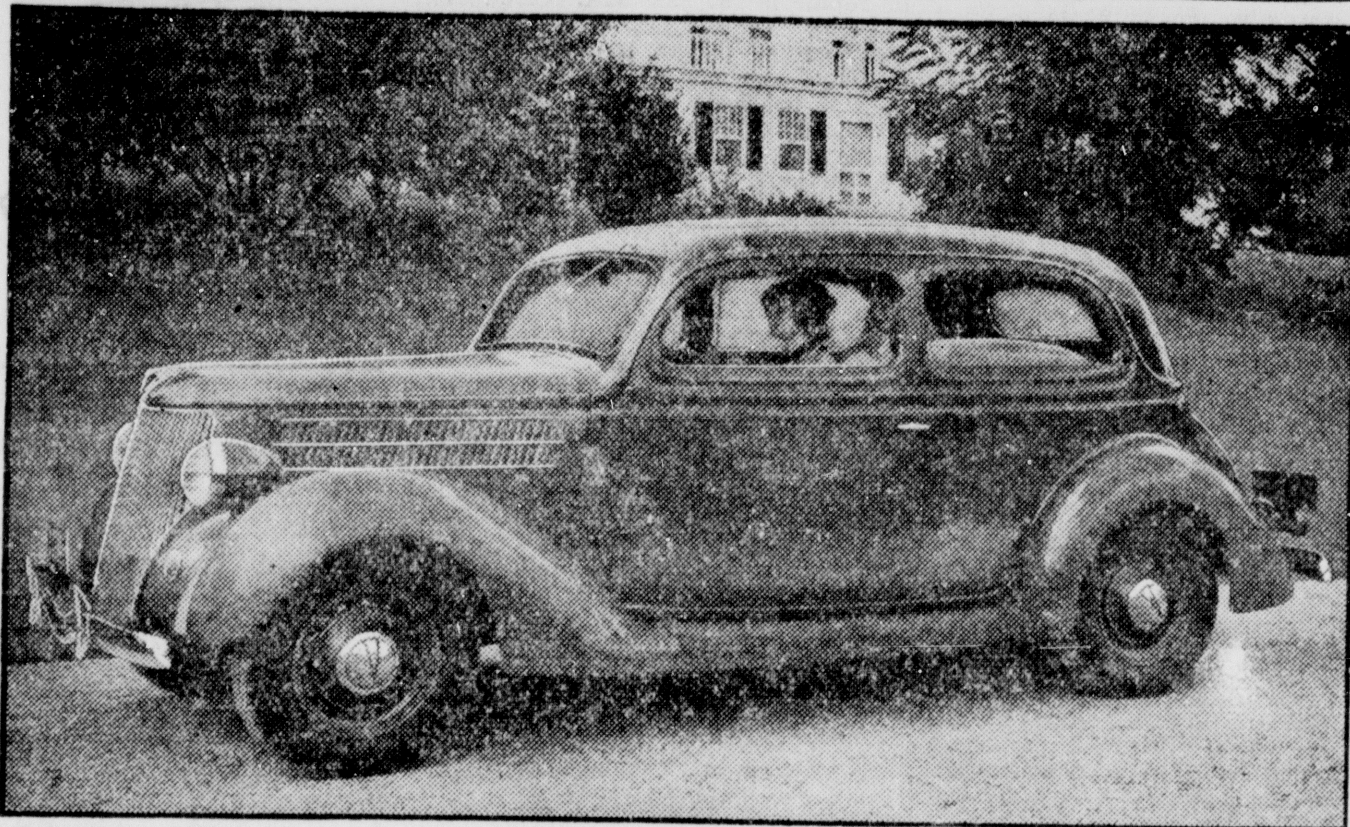

A recent bulletin, compiled by Purina Mills, tells of the plan worked out by the Purina Research Farm for developing calves into profitable first-calf heifers. It's obtainable by writing to the Dairy Dept., Purina Mills, St. Louis, Mo., or at any store where Checkerboard feeds are sold.

### INTELLIGENT ANTS.

Johnnie: "Well, they can always find the place you go for a picnic, no matter where it is."

## Longer Lines in Ford V-8 for 1936

THE LONGER and more graceful lines of the Ford V-8 for 1936 are well illustrated in this view of the popular De Luxe Tudor Sedan. The new longer hood extends gracefully over the attractive new radiator grille. Wide streamlined front fenders, with an imposing flare, shroud the tires and house the

horns behind chromium grilles. New design steel wheels with 12½-inch hub caps are handsome and easy to clean. Bucket-type front seats are exceptionally comfortable. This body type, of welded steel like all Ford V-8 bodies, is also available without de luxe appointments at lower cost.

### MAKE THE BUILDINGS SAFE AGAINST FIRE.

By V. M. Couch.

A great many farmers belong to mutual fire insurance companies and wish to keep the cost of insurance as low as possible and in order to do this it is necessary to have flues and chimneys safe and in good shape. The following is a report made by one farm inspector who had looked over nearly four hundred properties, and says "at many places there were two sets of buildings to inspect, making it necessary to examine approximately five hundred buildings. Of the dwellings inspected there were sixty blind attics through which flues passed and these could not be inspected. Where bad flues were found they were generally just under the roof, and apparently, in most cases, the brick were soft and decayed. In some holes were found from the size of a lead pencil to ones large enough to admit a person's hand. The theory, as to the cause of the defects in the flues just beneath the roof is this: soft brick are used in the lower part of the flue and hard brick at the top, and as a result, if the soft brick are up very close to the roof, the action of the weather, the water freezing and the acids of the timber will cause them to decay and crumble away. One flue was found broken two feet below the roof, probably caused by the wind and while the chimney had not fallen over, it was leaning and supported by the roof and had an open joint across the flue more than a quarter of an inch wide. A number of chimneys were found which apparently had been struck by lightning, as they were cracked straight down from the top through the brick and mortar."

From the outside appearance most of these properties appeared to be in excellent condition; however, unless repairs were made on many of them a serious loss would have resulted.

In houses built in late years practically all have, or should have, chimneys made of hard brick and lined with a fire clay flue. Most property owners are glad to have the inspection made and anxious to have defects remedied. However, the people should know why the inspections are being made and what is expected to be accomplished.

### DON'T BLAME MILK IF ITS FLAVOR DOESN'T SUIT YOU.

Good milk is pleasant to the taste. When it's unpleasant—don't blame the milk.

Milk flavor and odor depend largely upon what and when cows are fed and the care given milk by dairymen and housewives. Some feeds affect the palatability of milk. Others have hardly any effect. Proper aeration and cooling of milk, and storing at low temperatures, reduces feed flavors and odors, sometimes eliminating them.

To avoid undesirable flavors many dairymen feed highly flavored feeds after milking. Silage made from corn, alfalfa, sweetclover, or soybeans; and

green alfalfa, cabbage, turnips, rape, and kale when fed an hour before milking produce noticeable flavors in milk, tests by the U. S. Department of Agriculture show. Green rye, green cowpeas, potatoes, dried beet pulp, and carrots affect milk slightly. Green corn, green oats and peas, green soybeans, pumpkins, and sugar beets show little effect.

Wild onions and garlic in pastures often give milk an objectionable odor and flavor. Cows should be removed from pastures infested with wild onions and garlic from 4 to 7 hours before milking.

I anticipate a revivification of opera through the motion picture screen.—Lawrence Tibbett.

### FALL AND WINTER PIGS.

By Mrs. Mary L. Ballew.

In order to make good gains on the fall and winter pigs and to bring them through the bad cold weather in a thrifty condition, we give them a good start. If they do not lose flesh at weaning time they will make strong, vigorous hogs. That is, if they have the breeding back of them. Our pigs are not weaned until they are 10 weeks of age. They are trained to eat grain before they are weaned and in this way they do not lose flesh. The beds are kept clean and dry. If given a good start, fall and winter pigs will make profits for their owners.

### A HINT.

A Scotchman paid a visit to a friend in London, but stayed longer than was expected. Time dragged on, and still the visitor from the north made no attempt to leave. At length the friend dropped a gentle hint.

"Don't you think," he said, "that your wife and children would like to see you again?"

"Thanks verra much" was the answer. "It is most awful kind of you. I'll send for them."

WINTER PERMANENT OFFER. PERMANENT WAVES, \$3.50 UP. CASE BEAUTY PARLOR, HONDO.

### NOTICE.

The D'Hanis Parent-Teacher Association will hold its regular meeting at the school on Wednesday afternoon, November 20, at 3:15.

### SECO COMMUNITY P. T. A.

The Seco Community P. T. A. held its regular meeting last Friday night, Nov. 8. A musical program consisting of songs and piano solos was rendered by Misses Josie and Sara Rothe. The meeting was called to order by the president, Mr. Geo. Bendele, and the secretary, Mrs. Louis Pichot, read the minutes of the preceding meeting. Mr. Wallace Lutz called the roll, to which a large number responded. After reports of all committees had been heard the meeting adjourned and the hostesses, Mesdames Herman Poerner and Alfred Rudinger, served delicious refreshments of cake and coffee.

Publicity Chairman.

### BRIDGE CLUB.

At a well appointed bridge party at which Mrs. Ed. Finger was hostess on Wednesday afternoon, Mrs. Eric Rothe received high score prize for members and Mrs. Reily Carle for guests. Mrs. A. J. Finger was awarded low and Mrs. Alphonse Boog the consolation prize.

A delicious salad course was served to Mesdames Herman Ney, Eric Rothe, Henry Biry, John Rieber, A. J. Finger, Reily Carle, A. J. Boog, Jim Finger, Hy. Muennink, and Ben Koch and Misses Tina Rothe and Corry Koch.

Lovely fall flowers in attractive bouquets were used as decorations in the bridge rooms.

### ST. ANTHONY'S COMMUNITY CLUB.

The regular meeting of St. Anthony's Community Club was held on Friday, Nov. 8, at 2:30 P. M. Preceding this meeting the members were entertained by a program rendered by the pupils of St. Anthony's School. The first number was a chorus by the Juniors. "Meaning of Armistice Day", a reading by Joseph Koch, was followed by another reading, "Education and Peace", by Melvera Rothe. A song, "America the Beautiful", was sung by the high school pupils. "Catholic Action and Peace" was the subject read by Regina Richter, and "World Peace" by Oscar Kohrbach. The concluding number, "It's for you, Old Glory", was sung by the high school pupils.

Following this the president, Mrs. Ben Koch, called the meeting to order. Mrs. A. J. Finger led the prayer and Miss Cornelia Koch read the minutes of the previous meeting. The treasurer reported having purchased a new heater for the primary room. The entertainment committee for this month was selected as follows: Mesdames Joe Carle, Louis Carle, Sr., A. J. Finger, Bill Brown and Helen Hubbard. They announced their card party for Sunday, Nov. 17th, at 2 P. M. There being no more business the meeting adjourned. Publicity Chairman.

Mrs. Della Boehme returned from College Station Friday. She accompanied Sergeant and Mrs. Ross Snider there. Snider will be instructor in the A. & M. College for the next 6 years.

### BENDELE-BIEDIGER.

Miss Elvira Biediger, daughter of Mr. and Mrs. A. O. Biediger of Biry, and Mr. Raymond Bendele were married Tuesday of last week in St. Louis Catholic Church of Castroville, at 9 o'clock A. M. Rev. Dean J. Lenzen performed the ceremony. Attendees were Miss Ella Nora Bendele and Mr. Leo Weiss. Following the ceremony a reception was held at the home of the bride's parents at Biry. Later Mr. and Mrs. Bendele left for a honeymoon on the Gulf Coast, and on their return they will reside at the Bendele farm.

### ANVIL SPARKS.

(Continued from first page). and left us with \$39,500,000,000 to spend for the products and services which make jobs and payrolls, and keep our farms and factories going. To sum up, the reservoir of income actually available to our citizens shrank from \$61,000,000,000 to \$39,500,000,000 in four years—while the cost of government rose \$2,500,000,000.

During depression every industry and every individual has been forced to retrench, in order to make out balance income. Government has pursued a diametrically opposed course—it has raised its expenses during years when the national income was steadily going down.

Here is one reason why the country finds the road to recovery so hard. Billions of dollars that would otherwise be used for productive purposes are going into public treasuries—and vast government borrowings make the outlook for future tax relief dark. These are facts that political efforts to minimize the tax problem cannot hide.—Industrial News Review.

### ENGAGEMENT RINGS FOR MEN POPULAR.

In most countries on the continent of Europe, men wear two rings. One is an engagement ring, plain wrought or with a single gem that is given on the day of fiancailles by the parents of the bride. In Germany the betrothal is a kind of premarriage and practically binds the pair, great scandal being caused by any breaking off of such arrangements. In other countries, the ceremony is more or less solemn, more or less binding, and rings are exchanged or not, according to local customs. As a rule, however, the bridegroom gets a wedding ring as well as the bride, excepting in England. He is not supposed to remove it, as it brings bad luck on the house to do so, and for this reason, the ring is in plain gold. In summer time many men's rings are found in tramways and other places, having been removed to make some infatuated female believe that the man was single.

The fact that every married man wears one or two rings on the third finger generally means that he wears a signet ring as well and perhaps another ring, a solitaire with a magnificent stone, a mosaic or something plain and simple, yet good, to take away the plainness of the wedding ring.

### SMOKE RINGS.

Bad men want their women to be like cigarettes, just so many, all slender and trim in a case, waiting in a row, to be selected, set aflame, and when their flame has died discarded.

Most fastidious men prefer women like cigars. These are more exclusive, look better and last longer: if the brand is good they aren't given away.

Good men treat women like pipes. And become more attached to them. The older they become! When the flame is burnt out they still look out for them, knock them gently, (but lovingly) and care for them always—No man shares his pipe.

—ANONYMOUS.

### WHAT SOME LACK.

The lecturer was giving an informal talk on physiology. "Also," he remarked, "it has recently been found that the human body contains sulfur."

"Sulfur!" exclaimed the girl in the blue and white blazer. "And how much sulfur is there, then, in a girl's body?"

"Oh, the amount varies," said the speaker.

"Ah!" returned the girl. "And is that why some of us make better matches than others?"—Vancouver Province.

### THE SEMI-COLON.

An essay on the semi-colon:  
"A semi-colon is a period sitting on top of a comma. It may be the result of a quarrel in the Punctuation family or it may not. Some think that the first time a semi-colon was used was when some man did not know whether to use a comma or a period, so to be sure he used both of them together."

A stingy farmer was scolding the hired man for his extravagance in wanting to carry a lantern in going to call on his girl.  
"The idea!" he exclaimed. When I was courtin', I never carried no lantern. I went in the dark."
